Some wounds require special care to heal.

The Wound Program at Riverside Healthcare offers a comprehensive wound care program with many specialized treatments to promote and speed healing across all settings.
Riverside Medical Center
(815) 933-1671
350 N. Wall Street, Kankakee
Wound care treatment and prevention provided by specialized nurses in an inpatient care environment. Ostomy site education and care including how to use the supplies for both inpatients and outpatients.

Wound Center – Outpatient
(815) 935-7260
401 N. Wall Street, Suite LL02, Kankakee
Multidisciplinary clinic including nurses and physicians specializing in infectious disease, podiatry, physiatry, and internal medicine. The team provides state of the art outpatient wound care with a variety of treatment options that promote and speed healing. Treatments may include specialty medication and dressings, Wound Vacs, hyperbaric oxygen, debridement, skin substitute grafting, etc.

Miller Rehabilitation
(815) 935-6500
1601 Butterfield Trail, Kankakee
Exceptional wound care for both long term and short term residents. Wound care is provided by an interdisciplinary team of certified wound specialists: physician, physical therapy and nursing. Patients have access to modalities such as pulse lavage, e-stim, wound vacs, debridement and more.

Home Health Care
(815) 935-3272
611 Division, Peotone
Provides in-home wound care for patients who qualify and are unable to access outpatient care by employing wound protocols. Riverside Healthcare patients have access to state of the art wound care products to enhance healing.

Riverside Health Equipment
(815) 933-5187
44 Meadowview Shopping Center, Kankakee
Providing state of the art wound care and ostomy supplies and equipment to continue the wound healing process in the comfort of the patient’s home. We work with the physicians’ offices to ensure patients have correct appropriate supplies for their wound care needs.
